

# How To Use The Online Slides

*(press space bar)*

*(or swipe if using smartphone)*

## Navigating

- Use the **space bar** to move to the next slide/item.
- You can also use the **arrow keys** to go backward and forward.
- You can also click the arrows in the lower right corner.

## Menu

- Another way to navigate is to use the menu in the lower left corner.
- You can either click on the "hamburger button" or just press **m** on the keyboard to open and close it.

## Vertical Slides

- There may be some sections of the presentation that have vertical slides.
- *(click space bar or down)*

This is the slide below.

*(click space bar or down)*

And this is the bottom slide.

You can tell if there are slides above or below the current slide by looking at the arrows in the bottom right corner.

## Bird's Eye View

- You can get a bird's eye view of the presentation by pressing "Escape".
- You can then either navigate with the arrow keys and press enter, or just click on the slide you want to view.

## Randomized Questions

You will occasionally see slides with randomized questions, and the following slide will contain the answer.

In order to create another random example click the **New Question** button.

For example, what is the sum of 6 and 6?

New Question

**Answer**

$$6 + 6 = 12$$

# Printing

- If you prefer to print out the slides then you will need to use the Google Chrome browser.
- Add **?print-pdf** to the end of the URL (after ".html") and then go to the print menu.
- For example, the end of this URL in the address bar should be **slideshowto.html?print-pdf**
- Be sure to:
  1. Change the **Destination** setting to **Save as PDF**
  2. Change the **Margins** to **None**
  3. Click **Save**

## Mobile Friendly

- These slides are also mobile friendly.
- So you can easily review lecture notes on your phone while waiting in line at the coffee shop!
